Dear Society Directors and Members,

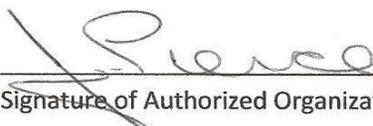

RE: Letter from BVFD Auxiliary requesting Grant in Aid

The Bamfield Volunteer Fire Department Auxiliary has been in existence for approximately 23 years. The membership has varied over the years, however, Tish McPhee and I have been the constant executive members over the last several years. In consultation with the many volunteers who have supported the BVFD Auxiliary, we have full support to carry this project forward and submit this application for Grant in Aid funding to the Bamfield Community Affairs Society for consideration and approval.

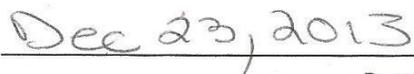

I will be on vacation and away from Bamfield until mid February. I would like to attend the Community Affairs meeting in March 2014 to present the application to the community members. I understand that the vote will be the month following the Grant in Aid application presentation.

I will contact you when I return to Bamfield.

Sincerely,

Signature of Authorized Organization Representative/Individual
